

Guide for Swimming at the Pool Before Hotel Check-in

Step 1: Pack a Separate Pool Bag

Before arriving at the hotel, organize your pool essentials in a separate bag to avoid rummaging through your luggage. When you arrive, check your main luggage with valet and head straight to the pool with your pre-packed gear. Here's a checklist of items to include:

- **Phone:** For calls, music, and poolside selfies.
- **Credit Cards/Resort Band:** For easy purchases or access.
- **Pool Bag:** To carry all your poolside necessities.
- **Extra Towel(s):** In case the pool doesn't provide enough.
- **Swimwear:** Pack your swimsuit and a change of clothes.
- **Cover Ups:** Perfect for walking between the pool and other areas.
- **Pool Shoes:** Flip-flops or sandals for comfort.
- **Goggles:** If you plan to swim or play in the water.
- **Sunscreen:** Protect your skin from harmful UV rays.
- **Portable Charger & Cord:** Ensure your phone stays powered up.
- **Waterproof Phone Case:** Safeguard your phone while near water.
- **Plastic Bag for Wet/Dry Clothes:** Keep your dry clothes safe and stash wet ones after swimming.
- **Hairbrush/Comb:** Freshen up after the pool.
- **Deodorant:** Stay fresh for check-in.

Step 2: Decide What to Take to the Pool or Check with Valet

You can either bring your personal items like a **purse** or **laptop bag** to the pool or check them in with your luggage at valet for safekeeping.
